MELTBLOWN TECHNOLOGIES

Water doesn't discriminate what it damages in Business/Offices/Plants/Warehouses/Schools

“Water damage in any facility breaks budgets, and hinders productivity. Dealing with damage, replacement and complicated insurance claims is problematic.”

A water pipe burst in this facility.

The maintenance team filled five 55 gallon cans with gray water before they stopped the flooding. Cleaning up the wall, moldings and floor as well as furniture damage was extensive. The room could not be used until all repairs were complete.

If they had our Flood Barrier,

the water would have been absorbed and then contained keeping the room dry. Offering exceptional clean up cost savings and reducesd maintenance times. With Flood Barrier the room would be back in use quickly, safely and efficiently.

Boiler leaks, and equipment leaks happen in facilities all the time, making costly messes.

If they had our Thirsty Pads,

all the constant time and cost to monitor these slow drip leaks would have been eliminated. With Thristy Pads there’s no changing out buckets and moping - what a waste of your time and resources.

Water's no match for our Sorbent Solutions

FLOOD BARRIER

Water-activated flood protection absorbs water and contains it.

Easy to use design and quick to deploy means a great stop-gap solution for long or short-term flash flooding. Once expanded it forms a water impervious dam to contain water.

- Super Absorbent
- Small & Lightweight
- Easy Storage
- Quick Deployment
- Stackable & Re-usable
- Small & Lightweight

- Lightweight, easy to store
- Fast to unroll when needed
- Can be stacked
- Protects any threshold
- Normal garbage disposal
- Made of 50% recycled materials
- 5 and 10 foot lengths

Deploy: Lay the barrier in close contact with the ground and position it at an angle against the expected flow of water to divert. You can also position the barrier in doors or other pathways to block access and prevent water entering the places you want to protect.

Absorbs: Saturate the Flood Barrier with water before the flood hits. Like the other Osmo products, the Flood Barrier uses a super-absorbent polymer that rapidly expands on contact with water. With enough water the Flood Barrier will fully inflate to 3.5in within minutes and lock water in or out with the Flood Barrier's resilient and watertight barrier.

Re-Use and Dispose: An inflated Flood Barrier can be used for weeks or months as necessary, though it is recommended you swap them out when the water within begins to evaporate in dry weather. Like other Osmo products, Flood Barriers can be thrown in the garbage once they are no longer needed

THIRSTY PADS

Drip protection in any location for any water-base leak. Thirsty pads are disposable, super absorbent pads designed to protect floors and hard surfaces from water leaks.

- Ideal for tight spaces
- Fits where buckets can't
- No more wasted time mopping
- Surfaces made safe from slip hazards
- Maintain clean and dry public space
- Avoids lasting damage to flooring
- Highly visible warning graphics
- Super absorbent and durable
- Standard waste disposable

MADE FROM 50% RECLAIMED MATERIALS

MBT
MELTBLOWN TECHNOLOGIES

Meltblown Technologies continues to innovate and expand creating profitable growth for our customers through labor and cost saving products. We work together with our customers to provide safe work environments, increase productivity, reduce waste, decrease overall costs and offer a safer environment.

Our strategic relationships with distribution partnerships reduces costs for the customers we serve. Buyers are well aware that a company is much more than the products and services it manufactures.

Meltblown Technologies manufactures the highest quality spill control and industrial hygiene products available on the market today in our state of the art facility in Sandersville, Georgia. Our most efficient product is a customer-first way of doing business.

Absolute Total Support and Unique Customer Experience

THIRSTY SOCKS

Superior absorbent barrier to catch and contain leaks. Once expanded, forms a water-impervious dam to contain and prevent escape of liquids.

Disposable super absorbent sock designed to absorb and contain water based leaks and spills on floors and hard surfaces.

- Highly visible hazard warning graphics
- Made from reclaimed materials
- Protects from water damage
- Standard waste disposable
- Fits in spaces where buckets can't
- No more repeated mopping
- Prevents slip hazards

Leaks in appliances, toilets, windows, washing machines, fridge and freezer cause common and regular water leaks and messes which create slip, trip and fall hazards. The maintenance team simply positions our **Thirsty Socks** where the leaks form and that's it!

SUGGESTED USES:

Rapidly absorbs and contains **LEAKS AND SPILLS**

WINDOWS RADIATORS WASHING MACHINES

TOILETS VENDING MACHINES FRIDGE & FREEZERS

Sock Dimensions 4.5" x 39.25

PLUMBER'S PADS

Drips and leaks in pipe work and other common plumbing leaks and drips cause damage slowly and methodically. These drips and leaks also take time, and labor from other maintenance tasks that are important.

By placing our Plumber's Pads under these problem areas, time labor and costs are virtually eliminated.

Leaks, drips or spills are resolved with a Thirsty Pad.

Protection for floors and hard surfaces from water leaks.

- Super absorbent and durable
- Highly visible warning graphics
- Standard waste disposable
- Made from recycled materials
- Surfaces made safe from slip hazards
- Fits where buckets can't
- Protects from water damage
- Can be left in place under leaks
- Ideal for tight spaces
- Avoids lasting damage from flooding
- No more wasted time mopping
- Maintains clean, dry public spaces
- Barrier backing

Water flooding, spills and leaks don't discriminate what they damage. Water damage is expensive, time consuming and difficult to remediate.

Now you can: Stop It. Contain It. Remove it!

Leak Diverters prevent slip hazards and water damage.

DRIP DAM™

Slip and fall accidents caused by drips and leaks can be just as costly as a containment violation. Protect your plant and employees with a Drip Dam Leak Diverter. Available in a wide variety of convenient sizes, this product comes complete with a standard ¾" drain to divert liquids to a safe spot.

- Easy handling and plenty of surface area
- 10' and 25' clear hose available
- Bungee cords for securing in place recommended
- Edges have grommets for proper positioning
- Custom sizes available
- High chemical resistance and durable design

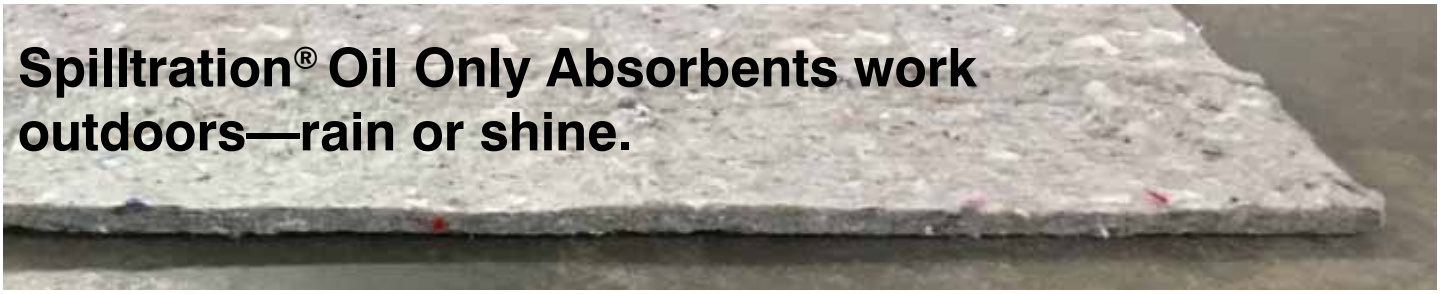
When Oil and Water Mix...



Husky Pads, Rugs and Strips:

Absorb oil and fuels spills fast.

Ultra-thick Husky Pads are engineered for the first line of defense for the outdoors to absorb oils and fuels while allowing clean water to filter through. Husky Pads are smoosh-packed to compress and fit in areas up to 80% smaller than traditional oil-only sorbents.

- Prevent oily water from reaching storm drains and waterways
- Avoid costly clean-up costs & fines by keeping spills in a small footprint
- Made from recycled materials, helps you in your sustainability initiatives.
- Reusable - Substantially reduce your materials and disposal costs

Item #	Description	Size	Abs/Case	Pack/Case	Case/Wt	Case/Pallet

SPL008	Husky Strip	8” x 64” x 1/2”	4	1	7.5 lbs	20

Spilltration® Shammy Towels

Shammy towels are designed for final clean-up detail on oil-based leaks & spills. Towels are super-sorbent for the outdoors to absorb oils while allowing clean water to filter through. They are smoosh-packed to compress and fit in areas up to 80% smaller than traditional oil-only sorbents.

- Designed to work in the rain
- Compresses to fit in small areas
- Made from recycled materials to meet sustainability initiatives.
- Reusable: Substantially reduce materials and disposal costs

Item #	Description	Size	Abs/Case	Pkg /Case	Case Wt	Case/Pallet

SPL003	Oil Shammy (50/pack)	16” x 16”	47	10	38 lbs	16

Here is the Fix

Spilltration® SmooshKit™

SmooshKits are lightweight, compact, convenient, and 500% smaller than other similar kits.

Our new SmooshKit™ is all about space savings. MBT's partner HalenHardy's patented smooshing technology solves the common space constraints that many fleet and remote industries face.

This proprietary process compresses our innovative Spilltration® material into compact packages that can fit anywhere.

SmooshKits are lightweight, compact, convenient, and 500% smaller than other similar kits, giving you an advantage when a spill happens.

Substantially reduce your materials and disposal costs by wringing and reusing Spilltration® products.

You can store SmooshKits™ in the smallest of spaces:

- The seat back of a pickup truck
- Glove boxes, toolboxes, and other utility containers
- Under, behind, or between your seats
- In your seat pocket
- Anywhere you have a bit of extra space

Drain inserts keep debris out of storm drains.

STORM SENTINEL® ADJUSTABLE CATCH BASIN INSERT

- Self-supporting frame and easy installation
- Up to 500 GPM overflow rate helps avoid ponding
- Helps comply with NPDES, 40 CFR 122.26 when used as Best Management Practice in Storm Water Pollution Prevention Plans
- Custom sizes available

Item #	Description	Dim. In.
4340	Trash, Sediment, Debris	27 up to 29
4340-IB	Trash, Sediment, Debris, Oils, Hydrocarbons	10 x 12
4340-22	Round Trash, Sediment Debris	22 up to 24
4340-22-IB	Round Trash, Sediment & Debris, Oil, Hydrocarbons	12 x 20
4341	Trash, Sediment, Debris	16 x 20 up to 28 x 36
4341-IB	Trash, Sediment, Debris, Oils, Hydrocarbons	24 x 24
4341-NO	Trash, Sediment, Debris - No Overflow	
4343	Trash, Sediment, Debris, Rectangular	Extra Large
4343-IB	Trash, Sediment, Debris, Oils, Hydrocarbons	25 x 25 up to 42 x 42

FRAMELESS STORM SENTINEL®

The Frameless Storm Sentinel is an alternative to the original Storm Sentinel. Custom sizes can be made right on the spot by simply cutting around the edges once the drain grate has been placed.

Item #	Description	Dim. In.
4320	Sediment No Frame	36 x 48
4320-NO	Sediment No Frame/No Overflow	36 x 48
4320-IB	Sediment-Oils No Frame	36 x 48
4326	Sediment No Frame	60 x 60
4326-NO	Sediment No Frame/No Overflow	60 x 60
4326-IB	Sediment-Oils No Frame	60 x 60

STORM SENTINEL® ADJUSTABLE CURB INLET INSERT

ENPAC's® Adjustable Curb Inlet Insert was designed to perform as great as our Catch Basin Inserts for inlet openings ranging from 24"–30" wide.

Item #	Description
4346	Trash, Debris & Sediment
4346-IB	Trash, Debris, Sediment, Oils & Hydrocarbons

20 Gallon Container Spill Kit
